# The family of Ray Terrien and Florence Albers. Our immigrant ancestors. 

Last revised 12/25/2014.
As I researched our Terrien family history I created the Terrien history charts that are attached to this list of our immigrant ancestors. As I created the charts I noted which ancestors left their prior lives to begin anew as immigrants in North America.

I'd like to think that spirit is still alive in family members of the future who will see this collection.

I kept a separate record for each immigrant every time they would appear in the ancestry of different family histories.

This is that full list but is a work in progress. I alphabetized the list and Included a listing for their spouse (and relevant dates), and which family history chart to locate that specific immigrant record on. When there are multiple entries for an individual immigrant, there will be separate references for which Terrien chart to use to locate that specific reference.

Note: I don't think the immigrant ancestors on Terrien Chart 5-2 are included in this collection. Terrien chart 5-2 is the update on the back of the page for Chart 5, the family history of Marguerite Langlois, spouse of Pierre Terrien.

Rick. Christmas 2014

> The name listed in bold type is our immigrant ancestor. The second line identifies their spouse. When second or third marriages occur, I have used only the spouse through whom we are related. Dates are used for identification purposes, to distinguish among ancestors with similar names. Birth dates are preffered; marriage and death dates are used when birth dates are not available.
> The third line of each listing refers to the chart on which that immigrant ancestor can be found. These charts are attached.

The name listed in bold type is our immigrant ancestor. The second line identifies their spouse. When second or third marriages occur, I have used only the spouse through whom we are related. Dates are used for identification purposes, to distinguish among ancestors with similar names. Birth dates are preffered; marriage and death dates are used when birth dates are not available.

The third line of each listing refers to the chart on which that immigrant ancestor can be found. These charts are attached.
